LRP DEEP BLUE 340 RTR 2,4GHZ SPEED BOAT

**NEW DESIGN!
EVEN MORE STYLE!**

SMALL, AGILE AND FAST

This is the Deep Blue 340. This compact speed boat is easy to control and virtually unsinkable. Therefore, it's the perfect entry into boat modelling.

The model has all features you need for safe and comfortable driving fun: waterproof electronics***, safety system for the powerful motor, battery warning system, RESCUE function, reinforced propeller and a range of 100 metres. The unsinkable* LRP Deep Blue 340 is the perfect must have for all boat model fans.

„Tune up your Deep Blue Racing Boat“ is the motto of the special optional batteries (NiMH and LiPo). The model can be pushed with higher capacity and more power compared to the standard battery. The time on the water will be longer and more intense, resulting in more fun.

FEATURES

- 2.4GHz technology - race with your friends
- RESCUE function**
- Battery warning system when battery gets empty
- Unsinkable***

THE NEW DEEP BLUE 330 HYDRO!

The LRP Deep Blue 330 Hydro is LRP's first ever hydroplane. Due to its exceptional construction, it is extremely agile and almost flies over the water.

With a length of only 330mm it is small and compact and can be perfectly carried wherever you go.

Due to the 2.4GHz transmitter with a range of 100 metres, multiple boats can be operated simultaneously. The boat is ready for tough races in rough sea with its powerful motor and enforced propeller.

LRP CCL LIPO BATTERIES TC LCG & SHORTY PACK

#430234

LxWxH	Weight	Capacity	Nom. voltage	C-rate	Style
139.0 x 47.0 x 22.5mm	268g	5600mAh	7.4V	110C/55C	TC LCG P5

FROM 85,99 EURO*

5600 - TC LCG P5

This LCG battery is tailor-made for modified racing and is the new standard for this class. It features a lower hardcase design which will lower the overall center of gravity of your car. This will result in higher cornering speed. The weight is also reduced so your car is closer to the weight limit or gives you the possibility to add extra weight to adjust the balance of your car.

Type: P5 LCG

Perfect for: TC Modified

LRP Advantage: Higher cornering speed, less flipping on high traction surfaces.

WorksTeam tip: Charge the battery to 4.1V per cell if you feel that the power output is too high. This will make you faster as the car is more controllable.

NEW P5 TECHNOLOGY

#430236

LxWxH	Weight	Capacity	Nom. voltage	C-rate	Style
96.0 x 47.0 x 25.1mm	206g	4500mAh	7.4V	110C/55C	Shorty P5

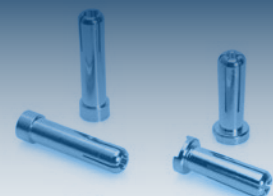

4500 - Shorty P5

Our top-of-the line Shorty LiPo battery. Highest capacity, high power - You will never go wrong with this Shorty.

Type: P5

Perfect for: 2WD and 4WD Offroad Modified

LRP advantage: High and consistent power output

AKA 1:8 BUGGY TYRES IN PAIRS

I-BEAM

The I-BEAM is designed for traditional tracks with a little bit of loose dirt. The larger lugs allow the tire to dig deep for maximum traction when it is needed the most. The center cross split bars give good forward bite and when used on the rear allow the car to rotate better in the turns when this is desired.

CITYBLOCK

The CITYBLOCK was the first pin on block design tire and sparked a host of copies across the industry. This innovative approach to tread design launched a tire that is unmatched in its versatility. From loose dusty tracks to high bite hard packed tracks the CITYBLOCK will deliver consistent performance and has become the work horse of the AKA tire line. You can't go wrong with a set of these in your tire collection.

IMPACT

The IMPACT tire features a dense small square lug pattern with offset lug rows in the center of the tire to deliver maximum forward traction and good wear characteristics. The two outer rows of lugs are parallel to create a circumferential groove at the edge of the tire to give the tire very predicible side bite. This allows the car to rotate in the center of the turn while still feeling very stable and predictable. The IMPACT is built on AKA's latest carcass design featured on our ENDURO and WISHBONE tires.

FEATURES

- Maximum traction
- Long lifetime
- The correct tread for every surface
- Pre-clued for immediate race use
